

### EPORFOLIO ACTIVITY 3

[1]	
Resource Type	Book
Search Tool	Laucala library catalogue
Search strategy	<p>Initially, the author search was used to identify the author of the book. That is, <b>Michael, P.J</b> was typed in the search box and the both the <i>keywords option</i> and the <i>exact match option</i> were selected each times along with the <i>all authors option</i> however; no results were produced.</p> <p>The Advanced search was further used to search for the following keywords: <b><i>Distortion of Global warming AND Scientists AND Politicians AND Media</i></b>. This particular search produced zero results and finally the basic search was used. The whole title was typed into the search box and the <i>anywhere option</i> was selected along with the <i>keywords option</i>. This search strategy produced 1 result which was the exact match.</p>
Call number (DOI)	QC 981 .8.G56 M535 2004

[2]	
Resource Type	Published Journal Article
Search Tool	Laucala library Catalogue
Search strategy	<p>From the ProQuest Basic search, the Science and Technology database was selected. The Publication tab was selected. The <i>International Journal of Social Economics</i> was then typed in the search box. This search produced 1 result. After clicking on the result, a search box appears where the title of the article (<i>Global warming and the Future of the Pacific island Countries</i>) was typed in. The dates were then browsed which produced the different volume and issues for the year 2008. The exact material was found amongst the 9 listed articles when the volume and issue numbers were selected, that is, volume 35 and issue 12.</p>
Call number (DOI)	None
